## Omantel ICT Team

Updated in July 2023

“Omantel ICT Team is a Division created in 2016 to be the ICT Arm of Omantel for its Enterprise Customers. It acts as an end-to-end ICT Service Provider for the entire Oman serving customers with various solutions starting for Wi-Fi, CCTV, IP Telephony, Cloud all the way to the emerging technologies top of the edge solutions such as IOT, Drones, Big Data, Artificial Intelligence, iVMS, Space Imagery, Cyber Security and so much more. Throughout the past years, Omantel ICT managed to win projects with several entities both in Government and Private Sectors including Large Enterprises and Security Agencies and have succeeded in positioning itself as the trusted ICT partner. Omantel ICT have been recognized for its efforts and contribution in Oman’s ICT and Digital Transformation Roadmap and received awards for that.”
